AGENCY DESCRIPTION — The agency manages the state's 9.3 million acres of trust land on behalf of its 14 beneficiaries. In order to generate revenue, the agency plans, leases, and sells trust land. The agency also generates revenue by collecting royalties from the operators of 2 copper mines on state land.

Comments: The percentage in the column *FY 2003 Appropriation* of the last performance measure, *administration as a % of total cost*, was based on appropriated fund expenditures. The percentages in all other columns, however, were based on all fund expenditures, including non-appropriated and Federal Funds.

RECOMMENDED CHANGES FROM FY 2004

Operating Budget

The JLBC recommends \$12,210,200 from the General Fund for the operating budget in FY 2005. This amount would fund the following adjustments:

Lease Costs **GF** **\$(16,200)**
The JLBC recommends a decrease of \$(16,200) from the General Fund for lease costs.

Cost Adjustment **GF** **41,100**
The JLBC recommends an increase of \$41,100 from the General Fund for cost adjustments that when combined with Special Line Item adjustments below result in no General Fund change from FY 2004.

Special Line Items

CAP User Fees

The JLBC recommends \$1,026,400 from the General Fund for Central Arizona Project (CAP) User Fees in FY 2005. This amount would fund the following adjustments:

CAP User Fee Reduction **GF** **(194,900)**
The JLBC recommends a decrease of \$(194,900) from the General Fund due to a FY 2005 rate reduction from \$43 to \$32 per acre-foot by the Central Arizona Water Conservation District (CAWCD). Monies in this line item are used to pay the CAWCD for the department's allocation of CAP water used on state trust lands. The CAWCD sets the rates for all CAP subcontractors and applies the capital charges to the repayment of federal construction debt.

Environmental County Grants

The JLBC recommends \$125,000 from the General Fund for Environmental County Grants in FY 2005. This amount is unchanged from FY 2004. Monies in this line item are used by Greenlee, Graham, Gila, Navajo, and Apache Counties for environmental projects that impact economic development in those counties. The State Land

Department must approve any project prior to expenditure of the monies.

Environmental Education Program

The JLBC recommends no funding from the Environmental Special Plate Fund for Environmental Education Program in FY 2005. This amount is unchanged from FY 2004. Prior to FY 2004, monies in this line item were used by the Arizona Advisory Council on Environmental Education (AACEE) for grants that support environmental education centers and for other environmental education grants. However, the AACEE sunset on January 1, 2003.

Fire Suppression

The JLBC recommends \$3,000,000 from the General Fund for Fire Suppression in FY 2005. This amount is unchanged from FY 2004. This program funds fire suppression on state trust land and rural private land. A.R.S. § 37-623.02 provides an annual appropriation of up to \$3,000,000 for fire suppression. Because this authorization is in permanent statute, it is not included in the General Appropriation Act.

Natural Resource Conservation Districts

The JLBC recommends \$490,000 for Natural Resource Conservation Districts (NRCs) in FY 2005. This amount includes \$170,000 from the General Fund and \$320,000 from the Environmental Special Plate Fund. These amounts would fund the following adjustments:

Fund Shift **GF** **170,000**
OF **(170,000)**

The JLBC recommends an increase of \$170,000 from the General Fund to offset a commensurate funding reduction for NRCs from the Environmental Special Plate Fund. The JLBC recommends a decrease of \$(170,000) from the Environmental Special Plate Fund due to a projected decline of fund revenues.

In FY 2004, \$490,000 was appropriated from the Environmental Special Plate Fund for NRCs in the General Appropriation Act. The Governor vetoed the

ORB provision permitting the use of these monies for NRCDs, subject to legislative appropriation.

Monies in this line item are used to provide for natural resource research, scholarships, and staff at the state's 31 Natural Resource Conservation Districts. These districts are established to provide local conservation assistance and education and to coordinate the receipt of federal grants. The revenue deposited in the Environmental Special Plate Fund consists of \$17 of the \$25 fee for environmental license plates.

JLBC RECOMMENDED FOOTNOTES

Standard Footnotes

Of the amount appropriated for Natural Resource Conservation Districts in FY 2005, \$30,000 shall be used to provide grants to NRCD environmental education centers.

The appropriation includes \$1,026,400 for Central Arizona Project User Fees in FY 2005. For every dollar received as reimbursement to the state in FY 2005 from cities that assume their allocation of Central Arizona Project Water for past Central Arizona Water Conservation District payments, \$1.00 reverts to the state General Fund in the year that the reimbursement is collected.
